The International Pensions Team at LG has in-depth experience of advising clients on pensions, termination gratuities and employee benefits in Europe, Asia, the Gulf region and North and South America.

Our focus

Our focus is advising on the design, establishment and running of employee benefit arrangements for both private and public sector clients. We have detailed knowledge and experience of advising on pension arrangements for expatriate employees and their employers. We design and implement defined benefit and defined contribution arrangements for clients and also have considerable experience of establishing pension and other employee benefit products for financial institutions including insurance companies.

Our clients

We are trusted advisers to many international brands including BMW, Colt, Arthur J Gallagher, Rolex, Legal and General, GATX, Maritz, Hitachi, PwC, Virgin, Threadneedle and 20th Century Fox.

Governmental experience

In addition we have considerable experience of acting for both local and national government in relation to the regulation of pension schemes. For example we regularly act for the UK Pensions Regulator, the UK Pension Protection Fund, various local authorities and government departments.
